Chief Patrons :
Prof. (Dr.) Mukti Kanta Mishra, President, CUTM, Odisha & Andhra Pradesh
Prof. (Dr.) D. N. Rao, Vice-President, CUTM, Odisha & Andhra Pradesh

Patrons :
Prof. (Dr.) Supriya Pattanayak, Vice Chancellar, CUTM, Odisha
Prof. (Dr.) Anita Patra, Registrar, CUTM, Odisha

Co-Patrons :
Prof. (Dr.) Ajay Ku Nayak, Pro-Vice Chancellor, CUTM, Odisha
Prof. (Dr.) Biswajit Mishra, Pro-Vice Chancellor, CUTM, Odisha

Honorary General Chairs :
Prof. (Dr.) G. S. N. Raju, Chancellor, CUTM, Andhra Pradesh
Prof. (Dr.) Ganapati Panda, Former Dy. Director, IIT BBS
Prof. (Dr.) Okyay Kaynak, Istanbul, Turkey

General Chairs:
Prof. (Dr.) Subhranshu Samantaray, IIT BBS, Odisha
Prof. (Dr.) Prafulla Kumar Panda, CUTM, Odisha
Dr. Debendra Kumar Sahoo, CUTM, Odisha

Convener :
Prof. (Dr.) Ashok Misra, CUTM, Odisha

Organising Secretary :
Prof. (Dr.) Sangram Keshari Swain, CUTM, Odisha
Dr. Prabhat Kumar Patnaik, CUTM, Odisha
Dr. Abhishek Das, CUTM, Odisha
Prof. Satyanarayan Padhy, CUTM, Odisha

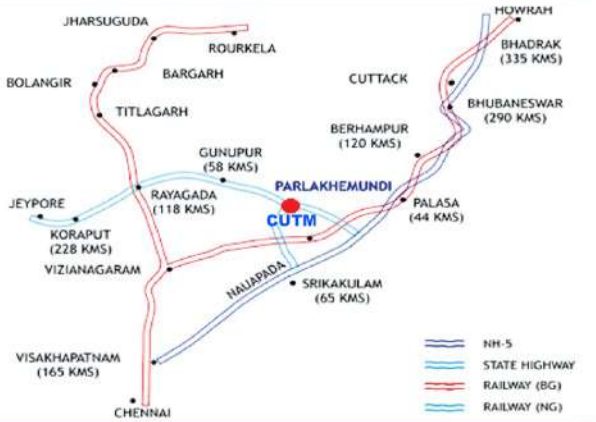

Key Note Speaker

Dr. Binay Kumar Das., DG(ECL), DRDO Govt of India
Prof.Saraju P. Mohanty,Director SESL, University of North Texas, USA
Dr. L Venkata Subramaniam, CEO, Qbit Force
Prof. Manas Panda, Director, STPI BBSR,MeitY, Govt of India
Dr. Amit Kumar Mishra, Director National Spectrum Centre,UK
Prof.Saratkumar Patra, Director, NIT Agartala, India
Prof. (Dr.) Ganapati Panda, Former Dy. Director, IIT BBS, India
Prof.Gautam Kumar Mahanti,HAG & Dean, NIT Durgapur
Prof.AnirbanSengupta, IIT Indore, India
Prof.Bishnu Prasad Das, IIT Roorkee, India.

Venue

CUTM, At: Village Alluri Nagar, P.O. : R-Sitapur,
Via: Uppalada Paralakhemundi,
Dist: Gajapati-761211, Odisha, India
Phone: (06815) 222999, 223088,
Fax: (06815) 222150

Approach to Venue

Contact Information

SCOPES Office
Room No: F-221, 2nd Floor, CRC-2,
Dept of ECE, School of Engineering & Technology, CUTM

IEEE
Advancing Technolgy for Humanity

3rd International Conference on Signal Processing, Communication, Power & Embedded System

(SCOPES-2027)

On Hybrid Mode
4 - 6 February 2027

Centurion University
Shaping Lives... Empowering Communities...

Organised by
Department of Electronics and Communication Engineering
School of Engineering and Technology
Centurion University of Technology and Management, Odisha
(Accredited with NAAC Grade A+)

Technical Co-Sponsor
IEEE Bhubaneswar Section & IEEE Bhubaneswar CS Chapter

About the Univeristy

Centurion University of Technology and Management (CUTM) is a leading state-private university in Odisha, India, with six constituent campuses. Promoted by visionary edupreneurs, it is widely recognized for skill-integrated higher education combining academic excellence with hands-on, industry-linked learning. A sister institution, Centurion University Andhra Pradesh, extends this vision to Vijayanagaram.

CUTM distinguishes itself through entrepreneurship and enterprise creation, with in-house labs for wood engineering, transformer manufacturing, apparel design, e-vehicle production, and waste-to-wealth units serving ITI, diploma, UG, and PG students.

The university hosts over 50 industry-sponsored laboratories and social enterprises under the Gram Tarang brand, fostering employability, inclusive development, technology innovation, and vocational training.

In research, 24 specialized centers focus on computational mathematics, medical diagnostics, aquaculture, phytopharma, genetics, and drone technology, supported by in-house grants for cutting-edge international research.

Academically, CUTM offers 50+ domain and 150+ skill-based courses through 16 schools, with collaborations with Ashok Leyland, Yamaha, Godrej, HAL, Schneider Electric, Dassault Systemes, and Manipal Hospitals.

Built on academia-industry-government collaboration, CUTM partners with NSDC, PMKVY, and Odisha Livelihood Mission, promoting inclusive education and placement-linked training for rural youth and differently-abled individuals.

Built on a collaborative model integrating academia, industry, government, and social entrepreneurship, CUTM has a growing presence across multiple states and stands as a promising institution dedicated to shaping skilled, innovative, and future-ready professionals.

About the Department

The Department of Electronics and Communication Engineering aims to produce qualified, skilled, and dynamic engineers in the rapidly evolving fields of Smart Devices, Mobile and Emerging Technologies, Automation, Industrial IoT, Embedded Systems, and VLSI Design. The department focuses on providing quality education, technical expertise, innovation, and practical exposure to meet the demands of modern industries and research organizations.

The department is equipped with sophisticated and modern laboratory facilities along with advanced software/tools such as HFSS, CADENCE, MATLAB, MULTISIM, KEIL uVision, and LABVIEW for research and development activities in the areas of Antenna and Microwave Engineering, Signal Processing and Communication, VLSI Design, and Embedded Systems. The department also undertakes real-time application-based projects in Smart Irrigation, Industrial IoT, Soil Moisture Prototype Development, Insulin Pump Prototype Development, Chip Design, and intelligent automation systems to address practical and societal challenges.

About the Conference

The IEEE International Conference on Signal Processing, Communication, Power and Embedded Systems (SCOPES) is a premier forum dedicated to advancing research and innovation in major engineering domains. The conference brings together researchers, academicians, industry experts, and students from across the globe to exchange ideas, present research, and foster collaborations.

SCOPES focuses on both fundamental and applied aspects of signal processing, communication systems, power engineering, quantum technology, and embedded systems. It highlights emerging trends such as artificial intelligence, next-generation communication (5G/6G), smart energy systems, advanced chip design, and intelligent embedded solutions.The conference aims to bridge the gap between academia and industry by addressing challenges in smart manufacturing, healthcare technologies, sustainable energy, and intelligent infrastructure. Through keynote talks, technical sessions, and tutorials, participants gain insights into the latest advancements and future directions.

SCOPES aligns with IEEE's mission of advancing technology for humanity by promoting innovation, interdisciplinary research, and global knowledge sharing.

Scope of the Conference

The conference invites original research contributions in the following tracks, but not limited to:

Track:1. Advanced Signal, Image & Intelligent Systems
- AI/ML and deep learning for signal, speech, image, and video processing
- Integrated sensing and communication (ISAC)
- Intelligent perception systems for autonomous applications
- Neuromorphic and bio-inspired signal processing
- Edge AI for real-time intelligent systems

Track:2. Next-Generation Communication Technologies
- 5G-Advanced and 6G communication systems
- Internet of Things (IoT) and wireless sensor networks
- Advanced antenna and microwave technologies
- Optical and high-speed communication systems

Track:3. Smart Power Systems & Sustainable Energy
- Smart grids and digital energy systems
- Renewable energy integration and energy storage technologies
- Electric vehicles and charging infrastructure
- Distributed energy resources and microgrids

Track:4. Embedded Systems, VLSI & Advanced Chip Design
- ASIC, FPGA, and System-on-Chip (SoC) design
- Mixed-signal and RF integrated circuits
- AI accelerators and neuromorphic chip design
- Quantum computing hardware and architectures

Track:5. Industry 4.0/5.0 & Intelligent Automation
- Cyber-physical systems and digital twins
- Smart manufacturing and industrial automation
- Robotics and autonomous systems
- Industrial IoT and edge intelligence
- Predictive maintenance and industrial analytics
- Human-machine collaboration and intelligent control
- UAVs, underwater vehicles, and autonomous platforms
- Intelligent sensing for industrial applications

Track: 6. Interdisciplinary & Emerging Technologies
- Smart cities and sustainable technologies.
- AI/ML-driven healthcare, assistive systems
- Disaster management, Earth observation
- Industry–academia collaboration, technology transfer

Track: 7. Quantum Computing & Learning
- Quantum computing algorithms and machine learning techniques.
- Quantum communication, networking, and cryptography.
- Quantum sensing, metrology, and system estimation.
- Applications and computational advancements in quantum systems.

Track: 8. Precision Agriculture & Digital Farming Technologies
- Smart farming using IoT, sensors, UAVs, and geospatial technologies.
- AI, robotics, and automation for precision agriculture.
- Precision livestock and aquaculture management.
- Climate-smart agriculture, digital farming, and policy-driven sustainable practices.

REGISTRATION FEE

Mode of Payment

Category	IEEE Member	Non-IEEE member	Foreign Delegates
R&D and Industry Participants	INR 9000	INR 10000	USD 225
Faculty Participants From Academia	INR 8000	INR 9000	USD 200
UG/PG Students & Research Scholars	INR 7000	INR 8000	USD 180

Registration Fee includes conference Kit, conference Proceeding, Certificate of participation, lunch & snacks. Accepted papers will be submitted for inclusion into IEEE Xplore subject to meeting IEEE Xplore's scope and quality requirement.

Important Dates

Events	Dates
Paper Submission Open	May 15th, 2026
Last Date for Paper Submission	October 30th, 2026
Notification of Acceptance	November 15th, 2026
Last Date for Registration and Camera-Ready Paper Submission	November 30th,2026
Conference Dates	February 4th – 6th, 2027
